

I am strongly against the proposal to allow LPFM to take priority over current FM translators.

I have been listening to K-LOVE for 4 years. I listen to the station almost everyday at home, work and while driving. Not only do I enjoy the music, but listen closely to the news and local events. I have participated in several events around the San Antonio area that I heard about while listening to K-LOVE. I would not hear about these events on any other station. It is a station that I know I can listen to WITHOUT BEING OFFENDED due to content, language, etc. It would be a great loss for this station to be taken off the air -- there is nothing else like it available. I also know that the station is listened by many other people in the San Antonio area because I see many cars with a K-LOVE bumpersticker.

Please do not force K-LOVE off the air.
